

NEW HUGHES TOUR TO STRESS TARIFF

Nominee Will Dwell Upon
Methods to Meet the Post-
Bellum Situation.

T. R. TO DO HAMMERING

Woman's Campaign Commit-
tee Formed to Work in
Suffrage States.

There is to be no change in the tone of the speeches which Charles E. Hughes is to make on the tour which he begins Monday through the middle West.

Resisting the importunities of certain leaders that on his next trip he handle Mr. Wilson without gloves, the Republican candidate has decided that so far as his own part in the campaign is concerned it will be kept on as high a plane as possible, with all personalities carefully eschewed, mention of the President by name being avoided for the most part and no rancor shown.

From his experiences on his Western trip and in Maine Mr. Hughes is convinced that this kind of campaigning for him is the most effective and will win him the most support.

Hughes Draws a Comparison.

As Mr. Hughes is reported to have outlined his views at a conference held this week, the Republican candidate takes the position he has developed one style of campaigning and Col. Roosevelt another.

The situation after the war—that is the big point Mr. Hughes has told the leaders he intends to lay stress upon in his coming speeches, with the tariff one of the chief features. The peace at any price sentiment in favor of Wilson, in Mr. Hughes's opinion, is fading and the post bellum situation is looming everywhere as a big question in people's minds. Mexico will be stressed even more than on the Western trip, a big bundle of new money having been despatched to Bridgehampton yesterday.

Other issues, such as the Adamson eight hour law and the President's foreign policy, will, of course, have a place in the coming speeches. But the protective tariff and other constructive measures are to have more emphasis than before.

The case of the Democrats as Mr. Hughes sees it, was presented in the President's speech of acceptance. In his coming tour Mr. Hughes will try to tear pieces the record presented therein, in order that for the people, to use a legal phrase, the issue may be joined.

Col. Roosevelt, on the other hand, if plans now shaping are carried out, will, on his trip to the Pacific coast, stress the Wilson in characteristic style and appeal particularly to Progressives in the doubtful States, Minnesota, Arizona, New Mexico, where public opinion has been added to the States that are clamoring for Col. Roosevelt. The only thing that may hold him back from a long trip may be his voice, which has been so sore since he has never been the same since his South American trip.

Woman's Campaign Committee.

Announcement was made at Republican headquarters yesterday of a Woman's National Campaign Committee to run the woman's end of the Republican campaign in the big suffrage States. The work will be conducted both from New York and Chicago headquarters. This is entirely a new phase of campaign work. The committee is appointed by Chairman Willcox follows:

Mrs. Joseph T. Bowen, Mrs. Laura B. Evans and Mrs. William Severin, Illinois; Mrs. J. D. Whitmore, Colorado; Mrs. Abbie E. Krebs and Mrs. Mary E. Gibson, California; Mrs. John Hays Hammond, Mrs. Lars Anderson and Mrs. Charles Sumner, New York; Mrs. William Elmer, Mrs. Nicholas Murray Butler, Mrs. Oscar S. Straus, Mrs. Nelson H. Henry, Mrs. Frederick A. Kellor, Mrs. Henry E. Danforth and Mrs. Cabot Ward of New York; Mrs. Robinson Hirsch of Oregon; Miss Maude Wemore of Rhode Island; Mrs. W. Aiken of Washington; Mrs. Frank Melrose of North Carolina; Miss Belle Fliegman of Montana; Mrs. Edna C. Baker of Nevada; Mrs. L. C. Hays of New Jersey; Mrs. Margaret Hill McCarter of Kansas; Mrs. Henry Morrell of Arizona; and Mrs. Margaret Zane Chennou of Utah.

Freedom of Action.

"The heads of my departments include both Republican and Democratic and every one of them understands that he is free to act in party matters as his judgment and conscience dictate. This is an administration pledged to non-partisanship in the conduct of the city's business, but this does not mean that those who hold office under it surrender their convictions or right to freedom of action in national and State affairs."

Republicans Get Garden.

The great race for Madison Square Garden as the place in which to wind up the national campaign of 1916 has been won by the Republicans.

Both sides have been running for the big Garden for the final demonstration of Saturday evening, November 4. The Republicans beat the Democrats by one day. The Democrats have booked the Garden for Friday night and will be forced to close their campaign on Saturday in the Academy of Music in Brooklyn.

Democrats "Touch" Police.

St. Louis Patrolmen Hear Party Could Use \$10 From Each.

St. Louis, Mo., Sept. 15.—Word has been passed to the 1,400 employees of the St. Louis Police Department that a donation to the Democratic campaign fund would be willingly received, and that the donor's attitude would be made a matter of record. The police have been told that at least \$10 can be used from each of the 1,400 policemen in active work.

The patrolmen are expected to "come across" with \$15 and the captains are expected to give \$25.

The patrolmen will be permitted to pay in two installments.

HUGHES GLAD WILSON ACCEPTS CHALLENGE

Nominee Ends Vacation To-
morrow and Will Not Re-
turn to Bridgehampton.

BRIDGEHAMPTON, Sept. 15.—Sunday will be Charles E. Hughes's last day of vacation in Bridgehampton. When he goes to New York city to start on the two weeks campaign tour which begins Monday morning he will abandon Trenton, the summer home, for good.

In the brief intervals between subsequent campaign trips he will remain in New York city, but he expects the time between the present and election day to be occupied largely in traveling.

Mrs. Hughes will not accompany her husband on the tour of the middle West, but will remain behind to place her second daughter, Miss Catherine, in Wellesley College and the youngest daughter, Elizabeth, in another school. She intends to be with the nominee on later trips, however.

Mr. Hughes would not discuss politics today. He declined to express an opinion with respect to President Wilson's reported intention to defend the Adamson eight hour law.

It is said that the Republican leader is pleased that Mr. Hughes had no callers today. He disposed of a mass of correspondence in the morning and had a long motor ride with Mrs. Hughes in the afternoon.

MITCHELL DENIES
HE'S AIDING BACON

Mayor Asserts His Heads of
Departments Are Polit-
ically Free.

Republican organization leaders in this State who have been watching the Bacon-Calder contest with increasing interest have become convinced now that it is going to be an exceedingly close race. At the start of the race they were not inclined to give Bacon more than 50 per cent. of the vote. Now they have raised this to 45 per cent.

Convinced that the Calder lead was narrowing, the Bacon people began advertising campaign yesterday through the State which they are to keep up all next Tuesday. At the same time the Calder people charged that Wall Street firms were seeking to get their employees to vote for Bacon.

Henry L. Stimson, former Secretary of War, and Ludwig Nissen, one of the leading Republicans of Brooklyn, Calder's own territory, are among the latest adherents to the Bacon cause. Both issued letters yesterday in support of Bacon.

Calder Explains His Position.

In several speeches here Calder said yesterday that if he thought his candidacy would jeopardize the chances of Mr. Hughes he would retire from the race. He declared, however, that a canvass of the State convinced him that Republicanism was a cause worth fighting for.

The report that Mayor Mitchell had interested himself in the Bacon cause to the extent of asking Republican officials to vote for Bacon brought this statement in denial from the Mayor:

"It is stated in several papers to-day that I am taking an active part in the primary campaign for United States Senator between Mr. Calder and Mr. Bacon, and that I have sent for the heads of my departments who are Republicans and advised them to support Mr. Bacon."

"Of course there is no truth whatever in this statement and it is utterly without foundation in fact. The campaign of Mr. Calder and Mr. Bacon is a party contest to be decided by Republican voters, and it would be both improper and presumptuous in me to attempt to interfere in any way. I have not done so and will not do so."

Freedom of Action.

"The heads of my departments include both Republican and Democratic and every one of them understands that he is free to act in party matters as his judgment and conscience dictate. This is an administration pledged to non-partisanship in the conduct of the city's business, but this does not mean that those who hold office under it surrender their convictions or right to freedom of action in national and State affairs."

"This being true, it would be in the highest degree improper for the head of the administration to attempt in any way to influence the political course of department heads or others."

"I have not expressed and will not express any preference as between Mr. Calder and Mr. Bacon, because that is a matter entirely for the Republican voters to decide and is none of my business."

HUGHES AND T. R. IN MOVIES.

Shown for First Time in Astor House Building.

Hughes and Roosevelt in the movies were shown for the first time yesterday at the downtown headquarters of the Hughes-Alton campaign. The Astor House Building, Mr. Hughes and his family were pictured at their summer home in Bridgehampton.

The pictures in riding clothes, was caught while receiving a delegation of Progressives and Republicans at Oyster Bay a few weeks ago. Merrill E. Gates, who talked to the speaker while the films were moving, told them:

"And I want to say that Mr. Roosevelt is working just as hard for Mr. Hughes as he ever did for any candidate."

Moving pictures are also being used by the Motion Picture Exhibitors League here, in the Astor House Building, where the League doesn't like Mr. Robinson's opponent, Senator Crispin of Herkimer, because he introduced the censorship bill which Gov. Whitman vetoed.

'BE OF GOOD CHEER, WE'LL WIN'—WILSON

McAdoo Brings Such Message
to Heartened Democratic
Headquarters.

HARD FIGHTING URGED

"Gumshoe Bill" Stone of Mis-
souri Also Speaks Words
of Encouragement.

To keep Democrats in heart, despite the returns from Maine, Secretary McAdoo visited Democratic national headquarters in this city yesterday and delivered a message of good cheer from President Wilson.

"The President," said McAdoo, "is confident he is going to win; he has been confident of it for many months."

All the Democratic officials in Washington, McAdoo declared, are as confident as the President, but they are not fooling themselves, and the President is not fooling himself. Into the belief it is to be an easy victory. It will require hard fighting, remarked the Secretary, and President Wilson wishes Democrats everywhere to appreciate the need of hustling.

"For he realizes," said Mr. McAdoo to friends in headquarters, "that many political campaigns have been won in the summer and lost on election day."

An "Authoritative" Statement.

As the President's son-in-law McAdoo is supposed to enjoy his confidence more fully than any other Cabinet official or party leader. Local Democrats therefore were inclined to attach special significance to his remarks and to regard them as in the nature of an authorized statement of the President's view of the situation.

With respect to the Maine election McAdoo intimated it would be easy to exaggerate the importance of the Republican victory there.

"The Republicans there," he said, "have sometimes celebrated in September and gone into mourning in November. History will repeat itself this year."

The Secretary of the Treasury could have referred only to the elections of 1912, that being the one occasion in Maine history when the Republicans carried the State in September and lost it in the November elections.

McAdoo said his wife, President Wilson's daughter, who has been ill, recovered much of her strength. The Secretary was on his way to Toledo, Kan., to attend a meeting of the Farm Loan Board.

"Gumshoe Bill" Also There.

Senator Stone of Missouri, "Gumshoe Bill" Stone, also visited national headquarters yesterday. Senator Stone predicted the reelection of Wilson and said a Democratic Senate and House were assured.

"The tide is running toward President Wilson and the Democrats," he said. "The Democratic campaign in Missouri is in splendid shape. The Democrats are working in harmony and with enthusiasm."

Eugene Kinkead of Hudson county, New Jersey, a candidate for Congress, New Jersey, said he was generally supposed, said Dr. J. Allison Hodges of Richmond, Va., in an address here to-day before the American League convention. He declared that Southern people tend to longevity.

Deaths Southerners Die Young.

St. Louis, Mo., Sept. 15.—Southerners are not as unhealthy as generally is supposed, said Dr. J. Allison Hodges of Richmond, Va., in an address here to-day before the American League convention. He declared that Southern people tend to longevity.

Dr. Charles L. Goodell Will
Preach at St. Paul's Morn-
ing and Evening.

NUGENT CLOSER TO WILSON.

Evidence of Reconciliation Seen at
State Committee Meeting.

TRENTON, N. J., Sept. 15.—Further evidence of the reconciliation between President Wilson and James E. Nugent, the Essex county leader, was manifested at a meeting of the Democratic State executive committee to-day. Mr. Nugent was named as one of the committee of three to arrange for a meeting at shadow lawn on Saturday of next week when the President will make an address to business and commercial men.

Other members of the committee are State Chairman Edward E. Grosvenor and Representative Thomas J. Scully. Upon motion of Representative Scully the committee adopted resolutions extolling the administration of President Wilson and endorsing jointly his candidacy and that of Naval Officer H. Otto Wittippen for Governor.

The reported friction in the committee over the prominence of Mr. Nugent as an opponent in the campaign was not apparent to-day. It was announced, however, that the campaign would be run from Trenton and that the headquarters of the campaign would be removed to Newark.

PRESIDENT HEARS
SISTER IS WEAKER

Holds His Campaign Plans in
Abyance Pending Word
From New London.

LONG BRANCH, Sept. 15.—President Wilson held immediate campaign plans in abeyance to-day because of the news from New London, Conn., that his sister, Mrs. Annie E. Howe, who has been critically ill for several days, was growing weaker.

He saw no politicians, confined his work to a considerable amount of correspondence and played golf with Mrs. Wilson.

The President and Mrs. Wilson held themselves in readiness to return to New London if word should come that Mrs. Howe could live but a brief time longer. It is thought the President will go to South Carolina for the funeral if his sister dies.

President Wilson was formulating plans to answer the statements of Mr. Hughes on the Adamson eight hour law when the serious illness of Mrs. Howe intervened. He and his advisers have hesitated Mr. Hughes's contention that the action of Congress did little except give the railroad employees an increase in wages. The President considers the important point is that it established the principle of the eight hour day.

Eugene Kinkead of Hudson county, New Jersey, a candidate for Congress, New Jersey, said he was generally supposed, said Dr. J. Allison Hodges of Richmond, Va., in an address here to-day before the American League convention. He declared that Southern people tend to longevity.
